

THOMAS C. ROBINSON – SOFTWARE ENGINEER + CIS/MBA

Everett, WA • [\(425\) 405-5495](tel:4254055495) • tom@halfpastnull.com • More Info: <http://halfpastnull.com/index.php/about/>

EXPERIENCE

Jul 2006 - May 2009 **Sunbelt Software (Clearwater, Florida)**

Leading Anti-Spyware and Anti-Spam solutions developer, Sunbelt has “[Kept] the Bad Guys Out” for over two decades.

Key Programmer, Researcher, and Project Coordinator

Originally starting in Research at Sunbelt Software, my job quickly evolved into responsibilities held in engineering, project management, verification testing, and tier III support. My responsibilities included acting as coordinator for a highly lucrative B2B security solution, creating and maintaining robust automated classification systems, and serving in the core development team for VIPRE® Anti-Virus and MX-Virtualization™. I left Sunbelt to complete my MBA.

EDUCATION

December 2008 **University of Miami (Coral Gables, Florida)**

Master of Business Administration
Includes Six Sigma Champion Certification

May 2006

University of Miami (Coral Gables, Florida)

Additional Qualifications: Duke University Talent Identification Program Alumnus

PRAISE

July 10, 2009

“When I arrived at Sunbelt, I had a mandate to bring our research tools to market. We didn't actually have a product, just a collection of code. And my only assistance, when he could fit it in between other tasks, was Tom. Tom nevertheless turned the code into a product, [the] [Sunbelt CWSandbox](#), that has been wildly successful for us. Tom displayed innate genius in tying together the various pieces into a working analysis tool suite that did what no other product on the market could do. Not only was Tom exceptional in his coding skills, he also had a great rapport with our early customers, handholding and troubleshooting as needed till they were happy, and then some.”

- [Chad Loeven](#), V.P., International and Bus Dev, Sunbelt Software
